Card Readers

10/2/2013

I have completed a physical inventory of the active card readers that we have on campus. I used the attached spreadsheet that was provided by IT to verify the physical count. In addition to the spreadsheet I mapped their locations on the attached floor plans and campus parking map.

I counted a total of 62 readers. The breakdown was 41 SA3000 series and 21 SA2000 series. These readers were noted on the floor plans using a red dot. I also noted the series type on the floor plans, either a SA3000 or a SA2000.

I counted 48 blackboard controllers and noted them on the floor plans using a blue dot.
Note: Rooms with numbers are occupied by University Staff
Non numbered rooms are occupied by Byrd Center for Legislative Studies (CLS) Staff
